TinyPad is a simple application that allows its users to make use of a text editor in order to create and save documents. User-friendly interface The utility has a well-structured design. The program comes with a set of built-in themes that let you select the look that suits your mood the best. You can choose to add numbers or bullets at the beginning of each row, to make it easier when you are creating a list. It also allows you to change the

color of the text, using a predefined color or creating a custom one. Plus, you can change the size of the text with just a few mouse clicks. Main functionality TinyPad lets you store a large number of notes and it categorizes them into tabs. Also, once you are done with your notes, you can archive them so that your interface is always clean and tidy. The main feature of this program is the automatic saving mode of your notes. You never have to worry about saving or losing your work,

because the application takes care of it in the background. Actually, it doesn't have a save button to click at all. Other features This tool allows you to sync your notes online and keep them backed up. It backs up all your notes online with a 256-bit encryption algorithm to keep them safe. You can also update your Twitter status directly from TinyPad's main window. The search functionality helps you quickly find what you are looking for in your notes. The program also includes a set of keyboard

shortcuts to make your note-taking tasks even faster. What's more, you can undo or redo your actions and carry out basic clipboard actions (cut, copy, paste). Last few words

To sum it up, TinyPad is a simple, easy-to-use application that lets you take notes, archive, and restore them, as well as sync them online with ease. Nordic Horns is a powerful music composing tool.
